Product highlights

QuattroPulse This new muffle construction concept circulates the warm air flow in the cavity with increased speed, thus evenly distributing the heat. The result: successful and even baking at all levels of the oven.

Culinary Guide 15 A selection of 15 dishes for automatic cooking: select the weight of the food, the oven programmes itself in terms of time, temperature and cooking function.

9-position autoprogramme Exclusive: Autoprogram automatically manages all cooking settings (temperature, mode and time). Select the type of dish, put it in the oven at the recommended level and enjoy it when it is done. That's it!
